

Dr. Kimberly S. Adams is both a scholar of political science and a political activist/consultant engaged in practical politics. She brings a rare perspective to American politics, coming as she does from her roots as a native Mississippian through experiences as a local organizer and advocate, to her work as a scholar and activist on the national and international levels.

As a public speaker, Kimberly has presented in a wide variety of venues and can be relied upon to deliver impassioned, yet reasoned and substantive political commentary on contemporary, historical, and/or future developments in politics at the local, state, national and international levels.
